

# 🎓 Student Management System

## A Modern Solution for Managing Student Data

The **Student Management System** is a **web-based platform** designed to help schools **manage student information efficiently**. With an intuitive interface, it replaces outdated paper-based or spreadsheet-based tracking methods.

The screenshot displays a web form titled "Add New Student". It contains several input fields: "Student Name", "Contact", "Email", "Class Name", "Grade Section" (with a dropdown menu showing "Select Section"), and "Score". At the bottom of the form are two buttons: a blue "Add Student" button and a grey "Back to Student List" button.

## 🏆 Key Features

- ✓ **Manage Student Profiles** – Add, edit, and delete student records
- ✓ **Track Attendance** – Keep an accurate log of student presence
- ✓ **Grade Management** – Assign and update student grades

- ✓ **Admin & Teacher Roles** – Secure role-based access control
- ✓ **MySQL Database** – Secure and scalable data storage
- ✓ **Responsive UI** – A clean and modern interface with Bootstrap
- ✓ **Report Generation** – Generate detailed reports for students and classes

## **System Requirements**

- **Python 3.10+**
- **Django 5.x**
- **MySQL Server**
- **Bootstrap (for UI styling)**
- **Git (for version control)**
- **Web Browser (Chrome/Firefox recommended)**
